Experience

Frontend Developer

“Wisk Telecom Solutions” — Almaty, Kazakhstan

February 2025 - present

- Developed and maintained the web interface for **Smart SU**, a digital platform for intelligent monitoring, billing, and urban infrastructure management.
- Used **Vue 3** with **FSD (Feature-Sliced Design)** architecture to ensure a scalable and maintainable project structure.
- Built custom UI components, implemented complex forms, filters, responsive layouts, and integrated **REST APIs**, including **JWT**-based authentication and session management.
- Participated in the full development cycle — from sprint planning in **Jira** to production deployment via **CI/CD pipelines on GitLab**.
- Actively utilized **TypeScript**, **Vite**, **Pinia**, **Vue Router**, and **Vue I18n** to ensure code stability, reusability, and high-quality component documentation.

Frontend Developer

“Nomad Standard Consulting” — Almaty, Kazakhstan

June 2023 - February 2025

- Worked on **JavaScript**, **TypeScript**, **Vue 3**, **Nuxt 3**, **Tailwind CSS**, **Web Socket**, **RestAPI**, **Axios**, **Fetch**, **Docker**, **Git**, **CI/CD**
- Developed dynamic, responsive web applications using **Vue.js** and **Nuxt.js**, **improving user engagement by 20%**.
- Collaborated with the backend team to implement **REST APIs** and **WebSockets**, optimizing communication between frontend and backend.
- Together with the team, we switched to **TypeScript** for strict code typing, which improved the usability of the code and reduced the number of **errors during execution**.

Junior Frontend Developer

“IMarketing” — Almaty, Kazakhstan

June 2022 - April 2023

- **Created:** websites, landing pages, corporate websites, online stores.
- Assisted in building single-page applications with **Vue 2**, **Vue 3** resulting in a **30% faster load time**.
- **Integrated third-party APIs** and libraries to enhance the functionality of customer-facing applications.
- Worked closely with designers to translate **UI/UX wireframes** into code, ensuring pixel-perfect results, implemented responsive design and ensured compatibility with various browsers.
- Developed **reusable components** that reduced development time for **new projects by 25%**.

Education

SDU University

Bachelor of Information Systems

Almaty, Kazakhstan

August 2020 - August 2024
