Work Experience

Middle Frontend Developer | AO «Amanat Insurance»

Almaty, October 2025 — present

- Built a **cross-platform mobile application (iOS/Android)** using Nuxt + Capacitor, fully digitizing agent onboarding and document signing workflows.
- Integrated **eGov / Digital ID electronic signature**, enabling secure and legally compliant digital operations.
- Reduced manual workload by **90%** by automating insurance quotation processes.
- Migrated legacy codebase from **JavaScript** to **TypeScript**, improving maintainability and reducing bugs.
- Actively contributed to **system architecture decisions**, code reviews, and sprint planning for a scalable internal SaaS platform (ADP).
- Improved overall developer productivity and code quality by introducing best practices and structured development workflows.

Middle Frontend Developer | Wisk Telecom Solutions

Almaty, February 2025 — September 2025

- Co-developed **Smart SU platform** (urban infrastructure monitoring, billing, and management system).
- Designed and implemented a **scalable frontend architecture** using Vue 3 + Composition API + FSD.
- Built reusable UI components, complex forms, and dashboards integrated with REST APIs and JWT authentication.
- Managed full development lifecycle: **task breakdown (Jira)** → **development** → **code review** → **CI/CD (GitLab)**.
- Improved system scalability and maintainability, enabling faster feature delivery.

Frontend Developer | Nomad Standard Consulting

Almaty, June 2023 — February 2025

- Developed and maintained multiple web applications (CRM systems, learning platforms, corporate websites).
- Delivered projects for major clients including **KIA, Chevrolet, Allur, Halyk Kazteleport, KazAtomProm**.
- Built a reusable component library that **reduced development time by 25%** across projects.
- Improved application stability and readability by introducing **TypeScript**.
- Collaborated closely with cross-functional teams to deliver high-quality user interfaces.

Junior Frontend Developer | IMarketing

Almaty, June 2022 — April 2023

- Developed websites, landing pages, and e-commerce solutions using Vue 2/3.
- Integrated third-party APIs and implemented reusable components.
- Delivered responsive and user-friendly interfaces across multiple devices.
- Gained strong foundation in modern frontend development practices.

Education

SDU University — Almaty, Kazakhstan | Bachelor's Degree in «Information Systems» | 2020 — 2024
